Copyright © 2020 InfoSpace Holdings, LLC. System1 Company On Friday, BTS released a new music video for the feel-good song, Dynamite. Not surprisingly, one of the most popular boy groups in history, BTS smashed the YouTube Record for Most-Viewed video in the first 24 hours of release with more than 101 million views. But what really made headlines was that Dynamite was the band's first song with fully English lyrics. This decision may have been a surprise to many fans. To date, BTS has written, produced, and performed most of the songs in Korean. And while there are exceptions - band member RM collaborated with musician Lil Nas X on the Seoul Town Road Remix and BTS' latest album release in Japan also featured a number of songs in Japanese - for the most part, the group is known for its Korean lyrics. So what does the English single mean for BTS? Dynamite may seem new, but it doesn't reverse the identity that belongs to BTS's artists BTS member Jin told reporters at a virtual press conference ahead of the music video release that recording a song in English was a new challenge to show a new side of BTS to our fans. Not only are the lyrics entirely in English, but the style and genre of music are also closer to pop music, according to Gyu Tag Lee, assistant professor of cultural studies at George Mason University Korea. As a result, the new lyrics, genre, and style of Dynamite initially surprise viewers who tuned in to K-pop. K-pop is a very unique and different genre. There are very special qualities of K-pop that fans expect when they tune into the genre, Lee explained. Of course, if the music is slightly different from what you expect - it generates conversation. Kevin Winter/Getty Images But at the end of the day, Lee said that the new hilarious single didn't stray too far from the roots of k-pop. From the visual aesthetics of music video to the style and presentation of members, everything is very BTS. BTS has crafted an identity for themselves as one of the most representative K-pop groups, and I don't think it's changed, Lee said. Yes, it's a new experiment, but it doesn't reverse the identity they've created for artists. Just because BTS ising a new single in English doesn't mean their basic identity - the fact that they're Korean - has changed, Korean culture and K-pop journalist Hee A Park agreed. They're still K-pop artists. The new single is a 'gift' to fans abroad Tnem partner J-Hope told reporters on Friday that dynamite was a last-minute decision that wasn't originally in plans for BTS. We wanted to be on stage and as a group that could communicate with fans, we felt empty and helpless, BTS member Jimin said. We needed a breakthrough to overcome this emptiness and inertia, and we came up with this new opportunity. Experts say Dynamite signals fans abroad that BTS is a priority for global audiences even if they can't meet them in person right now. Due to the pandemic, BTS is unable to or tours all over the world, lee said. Lyrics attach even more importance when fans access songs through streaming services, as opposed to crowds and loud music. If you look through this lens, singing the lyrics in English is like a gift and an expression of this care for fans in English-speaking countries, according to Korean music critic Youngdae Kim. So far, these fans have done everything they can to analyse and consume BTS content, resisting language barriers, said Kim. He added that there will be a different sense of familiar and affinity for an experience when listening to the song in their native language. Park also pointed out that details of the video clip, such as various posters of world-famous artists hanging in Jungkook's room, included references that could appeal to fans around the world. Balancing Bangtan Sonyeondan on BTS at a virtual press conference on Friday ahead of the new music video release, BTS members explained in their own words why they decided to sing entirely in English. RM said the group decided they wanted to keep it in English and preserve the charm they first felt when the song debuted as an opportunity. When we took the version of the guide, we thought the English lyrics would fit the melody a little better, added band member V. Considering the song and melody, we all agreed that English singing would be better, V said at the virtual press conference ahead of the Dynamite music video release. Big Hit Entertainment Based on what BTS members said, it's hard to know whether the Dynamite signs more opportunities for future fans to hear the group sing in multiple languages alongside Korean. Finally, it seems that the English lyrics of Dynamite - like the release of the song itself - are best interpreted as a fun surprise for BTS fans. But if Dynamite foreshadows progression toward that of music languages beyond Korean, BTS is tasked with balancing the act. The group firmly embraces their identity as Korean artists and many Korean fans are more familiar with the group known as Bangtan Sonyeondan (or Bangtan Boys) rather than the international nickname BTS. One remaining task for BTS is to help fans who struggle with the two identities of BTS and Bangtan Sonyeondan understand that Bangtan Sonyeondan is BTS and BTS is Bangtan Sonyeondan.Park told Insider. In a sense, Dynamite has been a step forward in balancing this dual identity with the audience. While the lyrics may be in English, Dynamite fits the Newtro (a combination of retro and new) trend, which is currently popular in Korea, according to The Korea Times. This song - even if it's English - will work for an audience in Korea, Kim said. The interviews were written in Korean and translated into English by the author. Author.
